

April 4, 2017

Dear Colleagues,

I regret to announce that Mager Scientific is no longer a distributor for Leica electron microscopy sample preparation equipment.

For those of you who have made the journey with us over the last four decades, thank you for your continual support and patronage. In many ways, we've grown up together, and I hope we have also grown together.

Over the years, we have been proud to bring you some of the most knowledgeable technical representatives in our field: Frank Genovese, Betsy Larwa, JoEllen Tison, Brian Rolerkite, Mike Boykin and Cathy Johnson. On the 'inside', Peggy Smith and Jake Christensen, along with the entire Mager supporting staff, have been dedicated to serving you with an incredible level of customer service. All of these people are exceptional in every way, both professionally and personally. I cannot thank them enough for their service.

We have reveled in your scientific endeavors, and hope we have played a small part in that. It has truly been a privilege working with you.

Linda Lutz
President
